

Consultant: PV Technology Support

Life Sciences, USA

WCI Consulting Limited is a management consultancy operating in the Life Sciences sector. Our clients are leading life science organisations including those working in: Pharmaceuticals, Biotechnology, Consumer Health, Medical Devices, and Dietary Supplements.

Growing demand requires the continuing expansion of our consulting team. Our current assignments focus on enhancing performance in a range of heavily regulated business activities, including:

- Patient Safety and Pharmacovigilance
- Risk Management
- Quality and Compliance

Key to our success with our clients is our knowledge of their environment and our ability to work with them to implement operational improvements which, in turn, reduce complexity and improve compliance.

About the Role

We are looking for an experienced Consultant with a technology background to effectively lead a Technology work-stream for a long term client engagement. Candidates should be degree qualified, ideally in Computer Science or Information Systems, and **must** have some experience of the heavily regulated business processes in the Life Science industry.

Requirements

- Strong and practical knowledge of both US and EU drug safety regulations
- Industry leading experience in technology systems for drug safety clients; ability to advise and present to client on a wide variety of technology solutions
- Experience with modules for queries, aggregate report generation, signal detection, and management
- Knowledge of interfacing and add-on software to provide interfaces between manual processes and safety database
- Analytical skills to identify root causes of performance issues
- Interpersonal communication skills to provide constructive feedback, achieve agreements on initial relationships, as well as improvement plans with partners and team members
- Excellent task management skills and track record of successful implementation of new processes and tools
- High level of creativity with the ability to think outside the box
- Flexibility, quick evaluation of situations and quick decision making
