

Simplify what you do

Life Sciences Senior Consultant

We are WCI Consulting, a Management Consulting firm employing 100 professionals across Europe and the USA.

Because of growing demand, our Life Sciences Consulting practice in the USA is seeking team players to develop business process improvement focused solutions in the highly regulated Life Sciences industry.

We have been consulting to Pharmaceutical and Biotech firms since 1996. Our office is in mid-town Manhattan; however, our staff lives across the country.

Our target clients are the Top 100 Pharmaceutical companies, leading Biotechs, Agrochemicals, Medical Devices and Generic manufacturing companies. Our impressive client list includes 18 of the Top 20 Pharmaceutical companies. In addition, we facilitate benchmark forums in Drug Safety whose members include 15 leading Pharmaceutical companies and 26 mid-size Pharmaceutical and Biotech companies.

Current assignments focus on enhancing operational performance and compliance in a range of regulated business activities, including:

- Drug Safety/Pharmacovigilance and Risk Management
- Clinical Development, Study Management and Clinical Trials Supplies
- Manufacturing/Supply Chain with integration of QA/QC and compliance

Key to our success with clients is our knowledge of their type of environment and specific business challenges. This knowledge, combined with our ability to work with them to implement complete and pragmatic solutions, delivers substantial business benefits.

WCI Consulting offers a unique opportunity to build broad consulting skills and deep industry knowledge in a collegial and flexible environment.

We are looking for a small number of experienced Senior Consultants to lead components of client projects. A candidate must hold a bachelor's degree, and it is also strongly preferred that candidates have some experience within the heavily regulated Life Sciences business environment. In addition, a candidate's previous experience should demonstrate the following:

- A minimum of three years of business consulting experience with a focus on business process improvement and experience in value mapping as well as business process design
- Success in implementing sustainable business improvement solutions
- The ability to build strong client relationships at appropriate levels within the organization
- Project/program management skills with a track record of achieving project delivery on time, on budget and with clear client benefits
- Highly developed interpersonal and facilitation skills
- A high level of comfort working in multi-disciplinary teams including client personnel
- A working knowledge of managing change
- An understanding of how technology supports business results – strong technology skills are an advantage
- Business experience prior to consulting is an advantage
- Availability and willingness for 80% travel – a typical engagement is structured in the 3-4-5 model
- Ability to learn quickly and willingness to consult in new areas

If you would like to apply for this position or would like an informative discussion about the role, then please send your contact details, together with Curriculum Vitae to: consulting.recruitment@wcigroup.com and state the position that you are applying for in the subject field of your email.
